

Adult Reconstructive Surgeon

The Department of Orthopaedics and Rehabilitation at the University of Vermont and Fletcher Allen Health Care is seeking candidates for a full-time non-tenure faculty position in adult reconstructive surgery. Responsibilities will include patient care, teaching, and an interest in participating in clinical or basic science research. Academic rank will be determined by qualifications and experience.

Qualifications: Must be a board eligible or certified orthopaedic surgeon with fellowship training in adult reconstructive surgery with a focus on hip and knee disorders. Candidates must demonstrate interests in teaching and research.

The University is especially interested in candidates who can contribute to the diversity and excellence of the academic community through their research, teaching, and/or service. Applicants are requested to include in their cover letter information about how they will further this goal.

Fletcher Allen Health Care, the primary teaching hospital for the University of Vermont College of Medicine, is a level I trauma and tertiary referral center serving northern Vermont and upstate New York. The Department has a strong history of excellence in both clinical and basic science research. Visit our website at: www.med.uvm.edu/ortho

Applications will be accepted until the position is filled. To apply, please send an electronic letter of application and curriculum vitae to:
